MEMORANDUM FOR: Mr. Joseph C. Goodwin, Assistant to the DCI
SUBJECT : Article for "American Education" Magazine

1. OTR inquired the publication date of my recent article on "Education and The Central Intelligence Agency," stating that OTR desired several hundred reprints for utilization in a briefing program for businessmen.

2. I put the question to Miss Jan Sofokidis, editor of the magazine, who told me that the article was now scheduled for May, rather than February as previously indicated, and that reprints could be made available. She pointed out, however, that the article was being changed to accommodate a "sensational" lead billing, and that "student protests" (presumably against CIA on-campus) would be added.

3. Miss Sofokidis went on to say that the altered article would be submitted for CIA concurrence prior to publication; nonetheless, I thought it advisable to inform you of the foregoing as the new circumstances indicate your further pre-publication review of the material.
